Critical Facilities Solutions can help you protect against the spread of COVID-19 with cleaning and disinfecting services today.

Equipment & Above Floor PLUS Disinfectant of Surfaces

All surfaces up to 12' high will be vacuumed using a HEPA or ULPA filtered vacuum and disinfected with a CDC and Data Center approved cleaner. Surfaces will include the following:

- Doors, door post, and door handles (both sides)
- Badge readers
- Lights switches
- Any standing equipment including cabinets, desks,
- CRAC unit & PDU's, and
- ANY wall equipment.
- Containment doors and coverings.
- Walls
- Wall phones, fire extinguishers and other equipment attached to wall or post.
- Keyboard, monitor(s), mouse, telephone and accessible areas of horizontal desk top (hygiene clean, not a full workstation clean for dust and residue removal)
- Cable trays and cables
- Cable racks
- Top of floor surface
